

KLAS-TV Interviews Mitchell Kamin on Trends in Social Gaming

Bird Marella Principal Mitchell A. Kamin was featured on KLAS-TV Channel 8, a Las Vegas Articles station, discussing social gaming – a trending, non-traditional form of gaming. “There’s a lot of interest in this field on the part of regulators and businesses,” said Mr. Kamin.

Gaming companies and start-ups alike are looking to capitalize on this booming market and have to address questions of regulators contemplating new regulations and laws over social games. At the UNLV “International Conference on Gambling and Risk Taking,” Mr. Kamin shared his legal expertise on whether such regulations are warranted and discussed the effects they could have in the gaming and other entertainment industries.
